By way of a quick introduction, my name is Rachel Hill and I was a litigation solicitor for many years whilst also running a successful tuition business specializing in the 11+ entrance examination. Due to a family health crisis in 2017, I resigned from my work as a solicitor and transitioned fully into my tuition work whilst also embarking upon my Arbonne business which focuses on a holistic approach to health, wellbeing and beauty. The product philosophy embraces the connection between a healthier mind, body and skin for everyone. The whole product range is botanically based and:- 100% veganCruelty free and never tested on animalsGluten freeSoy freeNo quibble 90-day money back guaranteeCommitted to ongoing recycling and environmental sustainability Health and wellbeing has never been more at the forefront of people's minds. Our health is truly our wealth. I am looking to offer a personalized service that helps people [and their friends/employees/family] live their best lives. I can create recommended 'carts' containing products that are tailored to an individual's specific needs so do you know:- Someone going on maternity leave? If so, I can point you to products for baby, mum and dad too!Someone who loves the gym? There is an incredible range of nutrition and sport supplementation some of which is Informed Sport certified.Something returning to work after illness? I can suggest a range of soothing bodycare, calming tea and a bit of mood boosting makeup.A man who likes to be well groomed? There is a wonderful skincare range just for men.The person who loves their hair? Well, the hair range is amazing and used by many professional hairdressers.The person who loves to go on holiday? I can recommend all the skincare and nutrition they would love including an incredible self tan!
